Mobil Service Stations

- Mobil is currently unable to provide coffee, as we have received Government direction not to prepare food and beverages on site while New Zealand remains under Alert 4
- Mobil continues to sell pies and sausage rolls. We have moved to wrapped products from the same suppliers so that there is no unsealed products on site, in order to reduce the risk of transmitting COVID-19. Packaged sandwiches, muffins and slices continue to be available wherever they are usually stocked.
- All other packaged products and convenience remain available in-store. Where some stores are operating through the night pay window, site staff will be able to deliver items through the drawer
- All Mobil service stations are operated independently. However, Mobil has encouraged Mobil-branded service station operators to follow government guidelines and take extra precautions with regard to COVID-19.
- Recommendations provided to service stations include maintaining thorough personal hygiene standards, escalation of site cleaning schedules, including fuel dispensers, and ensuring site staff maintain social distancing where possible.
- Mobil considers that site operators should allow all persons with letters of authorisation from essential service providers to use bathroom facilities during the lockdown period. It is at sites' discretion as to whether they let other customers utilize bathroom facilities, provided this can be done safely and securely.

BP Service Stations

Portaloos facilities for customers will start to become available at 52 BP Connect sites around the country. Portaloos are at sites close to main trunk routes to meet the needs of essential workers and customers on essential trips.

In addition to the portaloos, toilet facilities for customers continue to be available at five Truckstops in Bombay, Dairy Flat, Papakura, Te Puna and Wairakei as these are located outside of our stores.
